

The ideal mixing worm pump for different dry ready-mixed materials.

Renovated and more compact.

Fully automated.
With safety systems.

Comprehensive control panel with anti-theft system and diagnostics.

Technical data:	PS 40
Mixer and pump gear motor	5.5 kw, 440 V
Material feeder gear motor	0.75 kw, 440 V
Output*	8 - 35 l/min
Delivery distance 25 mm hose max*	40 m
Delivery distance 35 mm hoses max*	60 m
Grain size max*	4 mm
Air compressor	270/ min, twin cylinder, diaphragm type
Water pump	1", min. pressure 2,5 bar
Dimensions LxWxH	1010 x 655 x 1500 mm
Weight	230 kg

*Depends on material type, quality, composition and consistency, diameter of conveying hose, conveying height and distance and the size of the screw pump.

Performance of the machine depends on the mix design. Sand must be graded and mix must contains a certain amount of fines and admixtures for spray plastering.
